

COVID-19

Organize your visits safely

A buyer is interested in your property and wants to visit it? That's good news! Given the current circumstances, however, it's important to respect the hygiene measures issued by public health:

Check whether the visitor has **travelled recently** or has any **cold, flu or other symptoms**. If so, reschedule the appointment.

Limit the number of people present as much as possible by admitting **only one visitor at a time** if possible.

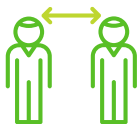

Avoid **children or seniors** (aged 70+) being present.

Open **doors and cupboards** and handle **light switches** for the visitor to limit points of contact.

Before and after the visit, **wash your hands** and disinfect banisters and other contact surfaces.

Maintain a **2 metre (6 ft.) distance** at all times.

Don't hesitate to call us if you have any questions.
